

Resource Management Apprenticeship Program

RMAP 2022

Who We Are

RMAP Connects regional college students and recent graduates with resource managers to gain hands-on knowledge and skills to prepare them for a career in resource management. This rigorous, paid, 10-week career-building apprenticeship program offers an outstanding opportunity to learn from professionals in the field, build skills, and network—all while contributing to relevant projects. Each student will be paired with a mentor for a nine-week internship and participate in a one-week orientation/training. Students learn the methods used by resource management professionals and community planners in the field and office and contribute to real-world projects.

Program Details and Benefits

PROGRAM DATES: June 6th, 2022 - August 12, 2022
